the six volume set Incs 12742 12743 12744 12745 12746 and 12747 constitutes the proceedings of the 21st international conference on computational science iccs 2021 held in krakow poland in june 2021 the total of 260 full papers and 57 short papers presented in this book set were carefully reviewed and selected from 635 submissions 48 full and 14 short papers were accepted to the main track from 156 submissions 212 full and 43 short papers were accepted to the workshops thematic tracks from 479 submissions the papers were organized in topical sections named part i iccs main track part ii advances in high performance computational earth sciences applications and frameworks applications of computational methods in artificial intelligence and machine learning artificial intelligence and high performance computing for advanced simulations biomedical and bioinformatics challenges for computer science part iii classifier learning from difficult data computational analysis of complex social systems computational collective intelligence computational health part iv computational methods for emerging problems in dis information analysis computational methods in smart agriculture computational optimization modelling and simulation computational science in iot and smart systems part v computer graphics image processing and artificial intelligence data driven computational sciences machine learning and data assimilation for dynamical systems meshfree methods and radial basis functions in computational sciences multiscale modelling and simulation part vi quantum computing workshop simulations of flow and transport modeling algorithms and computation smart systems bringing together computer vision sensor networks and machine learning software engineering for computational science solving problems with uncertainty teaching computational science uncertainty quantification for computational models the conference was held virtually

as global markets become more competitive businesses are increasingly seeking advanced technologies to gain an operational edge quantum ai is an emerging creation of quantum computing and ai that promises to revolutionize the way organizations solve problems and make strategic decisions by using this processing power of quantum systems alongside with ai companies can tackle challenges that were previously difficult from supply chain optimization to financial modeling using quantum ai can help streamline business operations drive innovation and unlock new levels of efficiency across industries optimizing business operations with quantum ai explores the ways that quantum ai can be harnessed in business ecosystems this book examines how quantum ai can revolutionize industry with innovative solutions covering topics such as ai business operations and quantum computing this book is an excellent resource for postgraduate students researchers practitioners and more

the past decade has seen four generations of quantum annealing processors with qubit counts

increasing from 512 on the d wave two released in 2013 to over 5000 on advantage processors available in 2023 during this time expanding access for researchers has sparked enormous growth in publications and in the body of knowledge surrounding capabilities applications and best practices in use of these novel computing systems this research topic will invite submissions on all aspects of empirical experience with annealing based quantum computers the intention is to present a broad survey of the current state of knowledge about quantum annealing hardware performance software infrastructures and applications

this book presents best selected papers presented at the international conference on emerging trends and technologies on intelligent systems ettis 2023 held from 23 24 february 2023 in hybrid mode at c dac noida india the book includes current research works in the areas of artificial intelligence big data cyber physical systems and security in industrial real world settings the book illustrates on going research results projects surveying works and industrial experiences that describe significant advances in all of the related areas
